

Vote Bethany Stevenson for Full Time Officer

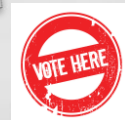

“Support Me in Supporting You”

I am a fourth year International Sports Management student from GSBS and I have been involved with the Students Association in various ways in my past two years of being a student here at GCU from my involvement in sports clubs and societies and Student Leaders Training. I am very passionate about inclusion and representation of students at GCU so the student experience on campus can reach its full potential.

If elected I will;

Continue to fight for more funding for our Sports Clubs, Media Groups and Societies so they can continue to thrive and support new members each trimester.

I will continue to support and effectively represent each liberation group at GCU so each affiliated individual feels safe and supported on and off campus.

I also would like to get our university affiliated with the Scottish LGBT+ Sports Charter, in order to get our Students Association the recognition it deserves for its inclusiveness within our sports teams.

I would also like to work with our university and the surrounding colleges in order to bridge the gap from college education to university education for direct entry students, as being a 3rd year direct entry student myself, I have first hand experience of the challenges and changes the jump to university places on an individual.

I will fight to get more accredited student recognition awards for those students that go above and beyond their normal studies so they can be championed for their hard work and consistent dedication.

As we are a University for The Common Good, I hope to launch a programme that supports the common good of Glasgow by offering more support for our ever-growing homeless community, by means of partnerships with volunteering programmes and local foodbanks and shelters.
