I will improve the accessibility
of library resources.
I want to ensure that all reading
lists are made available online.

I will strengthen communication
between teaching staff and the
students either
with a weekly bulletin on GCULearn
or through an email alert.

I will increase the amount
of recycling bins we have on campus.
To ensure that we stay a green and
environmentally friendly campus

I will increase the number of
smoking shelters and bins on
campus in order to cut down on
litter and so smokers do
not need to go off campus.
