

### **Empire Eric-Ikenna Manifesto**

Every aspirant for any position of leadership should have a vision to drive his anticipated position when he eventually wins. Mine is that as young people, we demand a world where we are empowered to lead a happy, inclusive and healthy life, free from any form of discrimination and violence; where our rights as students and ultimately 'humans', our choices and our bodies are respected and where we can realise our full potential to transform our communities and create sustainable change in our world.

If elected to office, I'd ensure that I will not just be a mere observer of policy and leadership, but be meaningfully engaged with the people I am elected to lead and be an active decision maker who will not be diminished to a quota by voices attempting to silence my good intent for the students.

I intend to main a good gender equality environment where everyone is highly honored and not disregarded for who they are or whom they have chosen to be.

Above all, we will maintain the standards of the University and endeavor to push her higher in the global ranking, so that our students both past and present will remain proud of this great institution and our name will be put in the priority list of organizations seeking solution in the various sectors that GCU produces graduates in.

Thank you.
