

GCU LONDON OFFICER ELECTIONS

Vote for Isobel

MSc luxury Brand Marketing student

MY PLEDGES:

Create more networking opportunities across the campus

More social activities across the city, partnering with local businesses for student offers

Improve access to information for both academic and welfare support in order to aid you with your studies

In detail...

Networking Opportunities:

I would aim to hold events purely for the goal of encouraging students to network outside of their courses. These events would create chances for students who might not cross paths usually to engage with each other and find shared career interests, which could stretch beyond your time at GCU.

More social activities:

If elected I would aim to create more social events. We're lucky to be a part of a small campus and it would be great to make the most of this. I would aim to use these social events to help students explore London more. Majority of us are international students so by partnering with local businesses, I would create opportunities for students to discover new venues off the beaten track.

Better academic and welfare support:

Finally, I would aim to make the opportunities for pastoral care clearer for students. Whilst we are all aware that there are people to talk to about private and academic issues. I would aim to make it easier and more efficient to be able to contact and speak to the people you need to when you need to. Whether this be through clear appointment sign ups or having information in one place.

I think these aims will have a positive impact on our GCU London campus, by creating more integration, therefore, creating a more social campus. This environment will value the social and professional relationships we have with each other and the city our campus is within.
