

Loretta Bortey

## Manifesto

### NUS UK Delegate Elections 2019/20

I am Loretta Bortey, a postgraduate student reading MSc. Big Data Technologies. Having served as a student leader in my previous institution, Kwame Nkrumah University Of Science and Technology(K.N.U.S.T) in various capacities such as member of student government parliament, vice president of the debate team, Editor in chief of the student representative council, electoral commissioner of the computer science society during my undergraduate study, I come with a proven track record of experience, skills and a relatable knowledge on the needs of students and how best these needs can be met. Being an ardent debater of the British parliamentary debate format, I come with experience on how best to craft, move and debate motions to clearly articulate the stands of the students I represent during the conference.

Voting for me would mean voting for a lady who has the ability to move beyond limitations and barrier of colour, gender, timidity and social narratives to provide nothing but leadership, strong representation and a chance to re-echo your voice as loud as I can. In whatever capacity I have represented students, I have done it with finesse to the best of my abilities and this could be proven with my awards as the best parliamentarian of the 2016 KNUST student government parliament and also as the best adjudicator in the Ghana Universities Debate Championship. I am your best bet to represent students at the NUS-UK conference.
