

MARIA NAGY FOR #1 STRONGER FOR GCU

I am Maria Nagy, a second-year undergraduate social work student and I am standing to be your Student President. I am currently a student ambassador, departmental representative and I have a seat at Student Voice to represent my department and SHLS. I am committed to enhancing student experience and making student voices heard and standing as a Full Time Officer is the best way to do this.

But what would I like to change?

Improve and widen student support

Remove graduation fees

Graduation is carrying a considerable cost. My goal is to lobby for the removal of the graduation fee and make the ceremony worry-free for our graduates.

Stronger protection for students in the private housing sector

Students are vulnerable to rogue landlords and low-quality housing. By cooperating and lobbying with other Student's Associations, Students Unions and local authorities, I am aiming to put an end to the issue by introducing legal support and a set of standards.

Co-produced review of student support

Produce a review with the University about student support services to act on the elimination of student poverty.

Improve student learning experience

Easier access to the Learning Development Centre

Improving the Learning Development Centre by offering more online resources to allow everyone access their services regardless of timetables and increased workshops during the run-up to assessment period.

Extended Library opening hours on the weekends

By extending the weekend opening hours, I am aiming to improve accessibility to learning material outside of assessment and study period.

Improve YOUR campus

Eat good, feel good

I am committed to improving the offer on the menu to include more variety and healthier, lighter dishes.

Revamp the study spaces

Provide a more comfortable, relaxing environment around the 24-hour lab for students studying until late hours.
