

# River Theo Gowans

Hi, I'm River, and I use he/they pronouns. I am currently a 3rd year Forensic Investigation Student, and I have been involved in the Students' Association since my 1st year, working my way up to **LGBT+ Liberation Officer** this year, as well as being part of **Student Voice** and the **Equality and Diversity** committee. Originally from Aberdeen, I spent half my life in the UAE before moving to Glasgow for university.

As an LGBT+ disabled student, I am passionate about making the university a better place for students from all backgrounds, especially those represented by the liberation and representation groups. The Students' Association has not had a trans Full Time Officer before, and my input will be valuable to make the university a safer place for everyone.

## My Goals:

Build upon **sustainability** to further the greener campus campaigns, including with food and drinks.

Implement **gender neutral** changing areas in the ARC, making sports safer more inclusive for trans and gender non-conforming students.

Increase **funding** for liberation and representation groups, to host more events and collaborations for students.

Improve **online and on-campus learning** with student-led improvements. The pandemic has changed learning for staff and students alike, and improving learning will benefit everyone.

Promote more **sober events** in the SA, to include those who don't drink and give a wider variety of events as well as the normal events.

Voting opens March 1st. Vote for River for Student President!
