

I'm Sevil Weaver and I'm standing to be your next FULL-TIME OFFICER!

If elected, I'll campaign on:

**#EVERAFTER:**

From finances to friendships to figuring out your next steps, there will be a lot of problems you will encounter as a young person. Working with GCU and local businesses, I'll create a special unit that students can get in touch (anonymously or otherwise) with to **address all the problems** that you face as a student and as a future graduate, so that you can handle them better by **helping you gain new counsel, business connections and opportunities**.

**BETTER ACCESS TO LIBRARY RESOURCES:**

With a student population of nearly 17,000 strong and an ever-extending reading list in your modules, accessing library materials in time for your assignments can be an additional stressor alongside studying. **This shouldn't be an issue students need to worry about**, especially with these unprecedented times. Where possible, I'll work with the University to expand our online library to hugely increase availability of University resources.

**EQUIPMENT HIRE:**

Due to COVID-19, there are students who have been **deprived of access** to laptops, cameras, microphones etc. for their modules and assignments. To combat this, I'll be looking to set up a **secure online booking system** where students can hire out equipment, check the items availability online, and enter themselves onto the waitlist and notification of availability. I know the difficulty of being asked to do the impossible task of building a VR Game with no VR equipment.

My experience as a student in these ever-evolving times, my relationship with university leadership and a firm connection to national movements will make me your best choice!

If you care about your life as a student here at Glasgow Caledonia University, then I call you to action, VOTE Sevil Weaver No.1 for FULL-TIME OFFICER.
