

## The Bigger Plan 2020: Key Performance Indicators (KPI) Outcomes (Year 5)

On Monday 16<sup>th</sup> March 2020 due to the Coronavirus pandemic the Students' Association took the decision to stop all in person student activities and on Tuesday 17<sup>th</sup> March 2020 we closed the Students' Association Building and London Office and employees moved to temporarily working from home. The first lockdown was announced on Monday 23<sup>rd</sup> March 2020 when the Prime Minister informed individuals they must stay at home, and should only leave for essential reasons such as buying food and exercising once per day. The Students' Association has remained active during 2020/21 and moved most of its services and activities online.

The Students' Association Building and London Office and in person student activities did not resume until the academic year 2021/22 on Monday 20<sup>th</sup> September 2021.

Awaiting 2020/21 HESA student numbers to work out Turnout.</p> <p>The coronavirus pandemic and the steps taken to mitigate risk to candidates/voters by prohibiting any in-person campaigning had a marked effect on turnout. Candidates had less access to students especially with the restrictions around GCU Learn that the institution enacted. The website voting platform also experienced an issue that decreased access to the vote for 24 hours. This was a website provider issue and was experienced by all institutions using the provider. The alternative sector provider also experienced issues in accessing the vote which has given suspicion that it may have been a cyber-attack of both voting platforms.</p>

**\*\*** In 2018 Facebook changed its algorithm that ensures timelines focus on posts from family and friends and focus less on posts by businesses. The way reach is measured has changed, reach is only measured if the post appeared in the person's timeline and they scrolled through and saw it. In 2018 Twitter announced that users would be able to toggle between Top Tweets and Latest Tweets. What that means is people can now easily switch between an algorithm feed and a real-time feed. At the beginning of 2019, Twitter made several announcements hinting that there will be more changes in store for its algorithm in the future.

This has been a challenging year for the Students' Association with the ongoing Coronavirus pandemic and moving most activities and services online. The Students' Association Building and London Office remained closed during the academic year 2020/21. With the exception of the limited return of some Sports Clubs for three weeks there were no in person student activities. The Students' Association provided updates to our members on how the Students' Association would operate in Trimester A and Trimester B through its website, all student email and social media channels.

During 2020/21 the following Big Actions were achieved:

- The [Guide to Student Representation at GCU](#) was launched with the Department of Governance and Department of Academic Quality. This was an outcome of the Academic Rep Review and Internal Audit on Student Representation.
- By-Laws reviewed and approved by Student Voice.
- Achieved Excellent in Green Impact accreditation.
- Completed the NUS Scotland Think Positive Student Mental Health Partnership Agreement.
- Contribution to GCU ELIR Reflective Analysis and GCU Outcome Agreement submission.

- Received a 94% satisfaction score for Students' Association and 93% satisfaction scores for Students' Association Clubs and Societies in International Student Barometer (ISB).
