Manifesto

NUS UK Delegate Elections 2019/20

I am presenting myself to represent GCU at the NUS Conference UK 2019/20 on account of my burning desire to offer effective representation, make our voice heard and contribute to policies that will be beneficial to GCU students and UK students at large.

I am bringing to this conference my past experience in leadership spanning over a decade in advocacy and policy making. I have been the Publicist of the Nigerian Medical Association, Enugu State Chapter, the Vice President of the Association of Residents Doctors and an elder statesman of the National Association of Residents Doctors in Nigeria. I am also a member of the Junior Doctors Network of the World Medical Association.

If elected as a delegate, I intend to consult widely among GCU students and articulate our positions on key issues to be discussed at the Conference to ensure all my contributions and votes are in our best interest. I will also use my skill at Social Media Management to give the needed publicity to the Conference and register our presence on the various platforms by posting updates with pictures for the benefit of GCU students who are not at the conference.

I will deeply cherish this opportunity if elected to serve in this capacity and will use it as a platform to do more for the student body in the future.
